## ACCESSORIES

### BOX SHELF AND OPEN SHELF†

Available in several load duties for varying load applications. With many widths and depths available, this system is extremely versatile. The open shelf is even compatible with hanging files.

### PULL OUT SHELF

These Pull Out Shelves offer quick and convenient access to many items and can be utilised as a retractable work surface. Available for 1000wide bays. Three depths available. Max 20kg per pull out shelf.

### PULL OUT CRADLE†

This Pull Out Cradle is designed to give easy access to stored hanging files and is available for 1000mm wide bays and is available in three depths: 370mm, 400mm & 450mm.

### DIVIDERS

A huge range of Full Height, Part Height and Under-Shelf Dividers are available, see technical literature for all options.

### PULL OUT DRAWER

Fitted onto telescopic arms, these pull out draws are available in three heights and three depths. Internal dividers are available.

### DOOR SETS

Door sets allow bays to be used as lockable cupboards. Available in several heights and widths. Compatible with pull-out accessories.

\*Dependent on specification

Probe reserve the right to alter design and price without prior consent.

# STORMOR DUO SHELVING

## Features & benefits

- o Ideal for **office, store room** or even **warehouse**
- o Shelves are clipped in position for **quick assembly**
- o A **stylish** and **adaptive** shelving system
- o **Extension bays** can be added very quickly and simply
- o **Compatible with all Stormor uprights**
- o **Many sizes available** to suit your storage needs

### DOOR SETS

Door sets allow bays to be used as lockable cupboards. These are available in several heights and widths and are compatible with pull-out accessories.

### PULL OUT CRADLE†

This Pull Out Cradle is designed to give easy access to stored hanging files and is available for 1000mm wide bays and is available in three depths: 370mm, 400mm & 450mm

## FLAT FLOORS SURFACE PROFILE TRACK

A simple, quick to install and cost effective system for flat floors. Aluminium extruded ramp with steel inset is fixed directly onto the floor and is suitable for floors with a flatness of between 1mm and 3mm/1000mm, in all directions, depending on application. A typical application would be a raised floor in an office.

## NEW FLOORS IN-SITU TRACK

No ramps are required for this system making it ideal for wheeled traffic. Suitable for new buildings where the final finished floor surface has not been laid. The track is levelled and fixed using nuts above and below the foot plate. For existing floors channels 200mm wide x 50mm deep can be used (subject to floor suitability).

## UNEVEN FLOORS INFILL FLOOR TRACK

Suitable for floors with an average flatness of 15mm over the floor. Floors are shimmed but not fixed preventing any need to put holes into the existing floor allowing easy relocation at a later date. An infill floor is fitted, ensuring a smooth trip free floor surface between tracks. Alternative finishes can be supplied. Ramps and trim are fitted to all edges of the floor.

## UNEVEN FLOORS INFILL FLOOR TRACK - FIXED

Floors are shimmed and fixed to cater for higher loads than non-fixed systems, but still allowing relocation at a later date. Suitable for floors with an average flatness of 15mm over the floor. Floors with levels outside this will need additional shims or consideration should be made to improve the floor prior to fitting the track. For example screed or a false structural floor. An infill floor is fitted, ensuring a smooth trip free floor surface between tracks. Alternative finishes can be supplied. Ramps and trim are fitted to all edges of the floor.

## FLAT FLOORS TRACKLESS

A guide rail attached to the floor along the wall guides the carriages in perfect alignment. This removes the need for fixed tracks, leaving clear unobstructed aisles, reducing trip hazards and interference for trolleys or steps. Mobiles run on non-marking, polyurethane-rimmed ball-bearing wheels.

# UP TO 100% SPACE SAVING

**PROBE KINETIC 2+ MOBILE SYSTEM**  
Here are two examples of shelving covering the same area. The New Probe Kinetic 2+ Mobile Shelving System increases shelving real estate by as much as 100% for a given area.

Probe reserve the right to alter design and price without prior consent.

# STOCKRAX STANDARD DUTY

## Features & benefits
